KSA NEWS RELEASE

K.I. Saab & Associates offers tire recycling & downstream product services

Converting scrap tire waste into crumb rubber into a wide range of value added downstream products

November 4, 2014 Los Angeles, California: **K. I. Saab & Associates (KSA)** provides clients in the GCC and MENA region with a wider range of **environmental tire recycling consulting services** including; market research, marketing support services and product development work, as well as sourcing technology transfer partners in the Middle East, so that products made in the USA, Europe and elsewhere can be manufactured locally via technology transfer and license agreements.

About KSA - With almost 20-years of international experience (including building the first tire recycling plant in Dammam, Saudi Arabia) associated with the tire recycling sector, KSA is pleased to be closely affiliated with KFA and our group can collectively bring specialist knowledge and expertise to the table and advise clients in all areas of the tire recycling business; from initial feasibility studies, design and development, technology transfer programs, project management and other associated services covering all aspects of the tire recycling arena. www.kisaab.com

JV & Business Consulting - Environmental Tire Recycling Projects

K. I. Saab & Associates is working in close collaboration with **Keith Fryer** President of **Keith Fryer Associates** (KFA) the Orange County, CA based environmental recycling consultancy, collaborating on all GCC projects with an emphasis on project logistics, technology sales and transfer programs and project management support services.

About KFA – Keith Fryer has been associated with the tire recycling & construction industry sector for many years and has been involved with market development work in Germany and the Middle East Gulf States - where Keith spent more than 5-years living and working in Riyadh, Saudi Arabia.

Strategic alliances have been established and a new KFA focus is being developed in collaboration with **K. I. Saab & Associates** to introduce new technologies and know-how from the USA and Europe to the Middle East and elsewhere around the world based on 20+ years tire-recycling & construction industry experience. www.kfa-ca.com
